

## Audio kabely

# Inakustik Referenz NF-803

The audio cable NF-803 from the in-akustik Referenz series convinces with outstanding clarity, precision and accuracy. Two high speed signal conductors provide the signal transport. At the same time, the DUO-PE II insulation and the air-filled PE tubes reduce unwanted capacitance and enable the signal source to work “comfortably”. The PE-Network Jacket also prevents micro-vibrations. Another highlight are the Referenz GAP II RCA plugs which take the symmetrical design of this connection to the limit.

### KEY-FEATURES

- ⊗ Symmetrical design
- ⊗ DUO-PE II insulation
- ⊗ 2-fold PE-Tube insulation
- ⊗ Braided shielding
- ⊗ PE-Network Jacket
- ⊗ High Speed signal conductor

### STANDARD

### HIGH SPEED
